Human Space Flight (HSF)

Whitson, and NASA's , will command a joint space station construction mission in late October. The Apollo spacecraft was redesigned and tested in Earth orbit during Apollo 7. April 23, 1967: Soyuz 1 launches but myriad problems surface.

Project Mercury: America's 1st Crewed Space Program

The shuttle Columbia spent a record 17 days, 15 hours in space, Nov. The 10-cent Mariner 10 commemorative stamp was issued on April 4, 1975, at Pasadena, California. One giant leap for mankind.

U.S. Staffed Space Flight Programs

Golovin in July 1961, to recommend a to be used in the Apollo program, represented a turning point in NASA's mission mode decision. The project had three main objectives: to orbit a manned spacecraft around Earth, to see how well humans fared in space, and to recover both the spacecraft and its crew safely.

All About the United States Space of the 1960s

He traveled fifteen feet five meters out, and began to experiment with maneuvering. So, his explanation for the events in the video? April 8, 1964: Gemini 1, a two-seat spacecraft system, launches in an unmanned flight. We've told ourselves a convenient story about the moon landing and national unity, but there's almost no evidence that our astronauts united even America, let alone the world.
