What Are the Causes of Homosexuality?

The ancient Greeks believed that straight sex with your wife was for producing children, but male friends were for affection and bonding with, including sexual love. The two are not opposed, rather, they intersect; and good scientists know the importance of political and social intersections. On the subject of homosexuality, both the Old and New Testaments speak with one voice.

What Are the Causes of Homosexuality?

I have always had a superhuman immune system never sick, nail biter so to me this hypothesis totally makes sense to me. So if tomorrow science would demonstrate that something goes wrong with fetal development in future gay persons, we should deny that for political reasons? I will now write to the editors of PT, and I suggest that anyone else who takes issue with this article do the same.

homosexuality

It is disingenuous of you to claim that they have discovered their innateness which means merely that innateness can emerge and therefore is not really given from the get go! Perhaps the author meant that the mother's immune system affects maternal bonding to her infant.
