Guidance Documents

There is a need for favourable access to and transfer of environmentally sound technologies, in particular to developing countries, through supportive measures that promote technology cooperation and enable transfer of the necessary technological know-how, as well as building up economic, technical and managerial capabilities for the efficient use and further development of transferred technology. New York 26-JUN-2020 DOD-COE-01150 This guidance document presents the sediment testing guidelines and requirements to be used by applicants who wish to obtain a Department of the Army DA permit from the New York District NYD of the United States Army Corps of Engineers USACE for dredging and placement of dredged material at the Historic Area Remediation Site HARS in the Atlantic Ocean. On fuels, business advocated use of natural gas and liquid petroleum as transition pathways to a hydrogen phase, but noted that hydrogen use would require more changes over time to become cost-competitive.

Text of H.R. 6395 (116th): National Defense Authorization Act for Fiscal Year 2021 (Passed Congress version)

If not, he is required to seek help from experts. Joint strategy for air base defense against missile threats.

LNG Safety and Security Aspects

Comptroller General of the United States report on implementation by the Armed Forces of recent GAO recommendations and statutory requirements on assessment of racial, ethnic, and gender disparities in the military justice system. Capability Objectives five and six above are included in the 2017—21 Corporate Plan for the first time to reflect the important work of our supporting capabilities.
