Do yourself a favor and skip over this company. TDS aims to ensure that all who work with TDS benefit from the expertise, integrity and responsiveness of its professional team.

Technical Diagnosis

He is currently Professor of Mechatronics at the University of Applied Sciences, BHT Berlin, and received 2007 the Beuth Award for achievement in engineering education. We are talking about a defect in the shock pulse sensor that we encountered. Models used in microelectronics and welding may be X-ray images of the objects, which are used for nondestructive inspection.

Technical diagnostics

Horst Czichos has been President of BAM, the German Federal Institute for Materials Research and Testing 1992-2002 and President of EUROLAB, the European Federation of National Associations of Measurement, Testing and Analytical Laboratories 1999-2003. Diagnostic means are divided into instrument, program, and program-instrument means; the last two categories are used to diagnose the technical state of computers operating according to a task program.
