Biochemical detective stories : a problem

In the mid-20th century, won considerable support for his theory that criminal behaviour was more common among muscular, athletic persons than among tall, thin persons or soft, rounded individuals. Biochemistry and molecular biology education is an international journal aimed to enhance teacher preparation and student learning in biochemistry molecular biology and related sciences such as biophysics and cell biology by promoting the world wide dissemination of educational materials. The highest rates of criminality are found among children whose biological and adoptive parents are criminals.

Criminology

For example, it could be the case that some other nonbiological intervening factor e.

Criminology

Instead, the presence of these factors merely increases the chance that the person will engage in criminal behaviour.

Clinical Detective Stories A Problem Based Approach To Cases In Energy And Acid Base Metabolism PDF Book

Twins are more likely to exhibit similar tendencies toward criminality if they are identical monozygotic than if they are fraternal dizygotic. Although the popularity of such earlier biological theories has waned, research has continued, yielding important findings.
