## AIOU Solved Assignments 1 & 2 Code 8601 Autumn & Spring 2021

The elements are as following: i Introduction The introduction is a way to warm up students, to ease them into the class and to give them a context for what they are about to learn. · Teach actively: Hard working teachers are always appreciated.

### Selected References on Secondary

Apparently some teachers forget that all classroom activities contribute directly or indirectly to the formation of attitudes, favorable or unfavorable. Try to engage students as much as possible in the learning process.

### Selected References on Secondary

Research says that teachers are cognitively oriented toward pupils while pupils are affectively oriented toward teachers. In this study, the Social Cognitive Career Theory SCCT is adopted as the framework to develop mobile phone-based intervention for career competencies. Scholars suggest that effective teachers are those who use meaningful verbal praise to get and keep students actively participating in the learning process.

### Attainment Grouping as self

Effective teachers can train their students to be respectful by many ways such as, he can keep individual grades on papers confidentially, or can speak to students privately after misbehavior not in front of others. · Be flexible: teaching requires flexibility. The inductive reasoning method moves from specific to general.

### Research News and Communications on JSTOR

The recommendations from the report are reproduced as Annex 1. Setting is seen as a way of keeping down the kids that are already down, and boosting those kids who are already up.

**EX150305**

The teacher must have mastery of the knowledge and new developments in the field. This quality also helps in building a sense of teamwork even beyond the classroom. No method, however good, is ever superior to its teachers.
