## Saussure and his Interpreters (review), Language

They remained unedited at Saussure's death in 1913, but his students' notes were collated, amalgamated, and published as a single book three years later by two of Saussure's colleagues, Charles Bally and Albert Sechehaye. Saussure stated that langage, the psychological and physiological faculty to produce meaningful language, does not manifest itself solely in the creation of individual sounds, words or units of meaning, and he stressed that parole, individual communication within a speech community, does not take on the form of a string of unrelated utterances. Within this publication, he proposes his idea of semiology, which is the study of language which should be carefully differentiated from ethnography, prehistory, anthropology, as well as the way language function itself.
