Polanyi likens colonial transformation to that which was witnessed during the capitalist nascence of the Industrial Revolution. The Kurds in turn cite examples of discrimination against them within the opposition.

Karl Polanyi In Vienna

Polanyi argues that the organization of the society around self regulating markets and the emergence of their disruptive side was only possible when the economy became disembedded, something that happened during the industrial revolution and its aftermath, clashing with the normal way in which men dealt with the economics aspects of life. In order for it to work, there needed to be peace on an international level so that trade could flourish. Finance was the key to maintaining peace between countries.

Karl Polanyi in Vienna: The Contemporary Significance of The Great ...

Polanyi writes that after the restoration of power in 1660, a law was passed to protect the better parishes from paupers. Polanyi argues that there are three principles of production: commercial, craft and household.

More than that, politics in the 1920s, which is often considered revolutionary, must be recognized as conservative because it tried unsuccessfully to restore a system of international economy from that same century. Authors such as Jeremy Bentham, John Stuart Mill and David Ricardo discovered that there was a society with its own laws governing it. On the second section we discuss his worldview, presenting his main ideas and concepts.
