INFO BUKU KEDOKTERAN DAN KESEHATAN MASYARAKAT: BAGIAN KELIMABELAS

The importance of hearing and vision is one of the reasons to advocate ophthalmologic evaluation in children with SNHL.

Ophthalmologic Findings in Children With Sensorineural Hearing Loss

Typically, deaf or hard of hearing people involved in the Deaf community refer to themselves as deaf despite their individual hearing levels.

Filesize: 17.82 MB

INFO BUKU KEDOKTERAN DAN KESEHATAN MASYARAKAT: BAGIAN KELIMABELAS

Conclusions In this study, the overall prevalence of ophthalmologic findings in children with SNHL was 21.

Hearing impairment, auditory perception, and language disability / John Bamford, Elaine Saunders

Integration of Sample Design for the National Survey of Family Growth, Cycle 4, With the National Health Interview Survey. DSH aims to

improve the quality of health care for people.
