. The experience of PICs seems to indicate that rapid growth in some countries and mass emigration in others, and associated high dependency ratios, hinder development.

World Health Organization, About us

It is obvious that Glen Williford is passionate about the subject matter and has walked the battlefields he writes about in this book; Racing the Sunrise is a tremendous effort and should serve as a valuable resource for those interested in the Pacific Theater of Operations during World War II. Idealized images were around the world from the time of first contact with Europeans: people in avidly read the reports of 1771 , 1773 , and other explorers and saw images made by the artists who accompanied them
