National Fleet Management Company

After the war, a privately owned merchant fleet emerged, spurred in part by government subsidies that paid for the fleet's operation up until 1953.

Merchant vessel

This amounts to: 59,413,000 GRT or alternatively 75,265,000 DWT. As of January 2019, the number of bulk carriers stood at around 11,562.

Merchant vessel

The tanker SS Emidio was sunk by a Japanese sub 18 miles off Crescent City, California on December 20, 1941. Translation memories are created by human, but computer aligned, which might cause mistakes. They can be divided into several categories according to their size.

Merchant Vessels

Divided first by country and then by shipping company, the book includes the ships of such great companies as Blue Star Line, Hamburg America, and American President Lines.

Merchant navy

Observer status is granted to qualified non-governmental organizations.

Merchant fleets

The home island could only do so much to replace lost transports so Canada stepped up in a big way, her already significant merchant marine increased radically in size throughout the war if I recall correctly and the RCN played a big role in protecting those convoys. Some of the escorts ran for safety; many bravely tried to help the merchant ships the remaining 700 miles to safety. If you see substantial portions of this page on the
