## Navdanya

It is, therefore, clear that there are significant external and internal ramifications of attaining the objectives of food security. Its point of no return has already been reached; it will die or be radically changed in the life of many people alive today. And after all that destruction, the industrial systems produces only 30% of the food eaten by people.

## Bill Gates and Neo

Another reason for absence of any trade secret laws is the dependence of Indian economy on agriculture.

## Sink or Swim: 6 Ways to Adapt to Climate Change

It is not true that GMOs increase yield. Some criticisms and concerns about UPOV are well-reasoned and should be debated openly; others are less well-reasoned and open debate will help clarify misconceptions.

## Navdanya's Diary » Blog Archive » Monsanto's Climate resilient plant patent rejected by India's Patent Office, Rejection upheld by the Intellectual Property Appellate Board

Intelligence is rooted in the Latin word inter legere, which means to choose. Insect-resistant GMO crops Other GMO crops used by growers include insect-resistant crops, which have a gene from the soil bacterium *Bacillus thuringiensis* Bt , which produces a toxin specific to insects.

## Bill Gates and Neo

Over 530 applications, belonging to 55 patent families, for climate-ready genes have already been lodged, according to a report in June by the

Ottawa-based Action Group on Erosion, Technology and Concentration ETC group , which works for human rights and conservation. Disease, brutality and immorality were caused by overcrowding which was itself the product of there being too many people — or so it was thought.

### **Sink or Swim: 6 Ways to Adapt to Climate Change**

Several legislative and institutional adjustments are being made in the country to gear up and face the challenges of globalization.
