

Organizing a Wisconsin business corporation - articles, bylaws, and other forms

State Bar of Wisconsin CLE Books - Wisconsin Articles of Incorporation

Name of Domestic Limited Liability Company

Article 1: Name of Domestic Limited Liability Company

Problems with name choices are the number one reason for rejected submissions. To make the process easier and faster, do the following steps before you submit this form:

1. Check the [Name Availability Guide](#) for guidelines of acceptable company names.
2. Search the [Corporate Registration Information System \(CRIS\)](#) database for names similar to the name you have in mind for your organization.
3. Follow the Rules. The name must contain the words **Limited Liability Company** or **Limited Liability Co.**, or end with the abbreviation **LLC** (without periods) or **L.L.C.** (with periods).

Because the pool of available names changes continually, and because the Department may apply availability standards not detailed in the Name Availability Guide, you are cautioned to make no assumption that a name is available based solely on your review of CRIS.

Name of Domestic Limited Liability Company :

Article 2: The Wisconsin Limited Liability Company is organized under [Chapter 183 of the Wisconsin Statutes](#)

The number of years that a Director may sit on the Board of Directors should be determined then reported. It should be reported if the Corporation intends to maintain and identify itself through a seal or if no seal will be maintained and used by the Corporation.

Wisconsin Corporation

This long and detailed form asks for lots of information about your organization, including its history, finances, organizational structure, governance policies, operations, activities, and more. You should keep the corporate records book at your principal location.
