## Federal Investment

The Japanese and later on the Koreans started their process through the traditional side of economy ore transformation, cars, ships but quickly migrated to more emerging niches of the electronic and digital

industries. The best examples, in this case, are Vale do Rio Doce and EMBRAPA and all the ensuing innovations from the latter alcohol, sugar, soybean, meats, poultry, fruits etc. Staying the course and diversifying can help to preserve your overall investment portfolio against the effects of changing interest rates in the long term

## A National Development Model

Newly issued bonds will have higher coupons after rates rise, making bonds with low coupons issued in the lower-rate environment worth less.

## A National Development Model

In the XIX century and in the first half of the XX century, exporting iron ores or other segments of the steel industry did not generate wealth. We have tried to consider the existing reality assuming that some successful cases would make viable path to development that can be summarized as follows: 1.

## How do interest rates affect investments?

This does not mean that all technologies should be developed in Brazil. If not the national enterprise, whose decision making process occurs in the country, another one would be in its place, would have the same profits but its productive pattern would be a foreign one. When the Fed raises interest rates, banks increase their rates for consumer loans.

### **Does Total Capital Investment Influence Economic Growth?**

This Program is connected to PROMINP, to the Technological Networks and Competence Nuclei of Petrobrás, to the CTPetro Networks and to the National Learning Service SENAI — SENAICTEC CTGAs. In the entrepreneurial area the Excellence Centers and Networks and the Technological Networks of Petrobrás are presently the only ones that are the product of the initiative of an enterprise. Maybe it will reach more than 100 million units in a few years.

### **Does Total Capital Investment Influence Economic Growth?**

At other times, the federal government may rely on policies other than investment to reach particular ends.

### **Does Total Capital Investment Influence Economic Growth?**

Roads, airports, and mass transit systems, for example, are often paid for in part by the federal government and in part by the state and local governments or independent authorities that own them. However, one should not expect that this money would exclusively come from the governmental budget. South Korea, an example of paradigmatic rising economy , has hundreds of innovation centers in the productive sector while Brazil has less than ten.
