### From pesticides to genetically modified plants: history, economics and politics

What makes combating the trade even harder is that there are no reliable statistics on the scale of the problem; in the EU's report on the counterfeit trade for 2010, pesticides were not included in their own category. Note Number 8, September 2005. International Journal of Pest Management, 57, 41—49.

### From pesticides to genetically modified plants: history, economics and politics

African Crop Science Journal, 7, 59—69. Industrial Crops and Products, 5, 307—322. This includes hazardous wastes, when such wastes can be used as safe and effective substitutes for virgin raw materials.

### EU regulations stifle fruit exports

The executive arm of the EU currently is undertaking a fitness check of regulations relating to pesticides approval and maximum allowed levels for pesticide residues which could lead to new or updated legislation. Natural pest management in Zimbabwe.

### AgroPages

This paper presents a critical review of the enabling environment required for wide-scale adoption and commercialisation of botanical pesticides in sub-Saharan Africa. Journal of Sustainable Development in Africa, 8, 198—202. Winrock International Environmental Alliance Arlington, VA, 117 pp.

### PESTICIDE TRADE NAMES AND THEIR ACTIVE INGREDIENTS IN THE AHS

Outlook on Agriculture, 39, 79—87. India, Science and Technology: 2008. This is mainly due to lack of data on efficacy and safety, inconsistent efficacy of plant products, the prohibitive cost of registration, and an inadequately developed conventional pesticides sector.
