### **Immigrate to Estonia. residency and citizenship guide.**

But many are still worried about their implementation. We want the very best for emerging Europe, nothing more, nothing less.

### **Trust is key as Estonia tests global vaccine passports**

In 2001, Estonia introduced a data platform for government use, X-tee. Topia is in many ways the embodiment of this, and an example of what an Estonian start-up looks like, with the mission to make working across borders easier. So even back in the 1990s there was a realisation in government that it would have been too expensive to open government offices in every small town, on every island.

### **Keep it simple and short: The key to Estonia's digital society**

The state also benefits because statistics are kept up-to-date, and functions such as voter registration and tax filing, which are based on place of residence, can be handled properly.

### **Trust is key as Estonia tests global vaccine passports**

Additionally, this must be done within the first three months of stay. Mires are natural carbon sinks that have the potential to become ruinous greenhouse gas emitters. Made rich by two huge exits the first was in 2005, when eBay acquired 65 per cent of the company, and the second in 2011 when Microsoft purchased the peer-to-peer communication innovator for 8.
