Netherlands Indies, 1900

. Based on new data from a variety of sources: colonial archives, journals, household manuals, children's literature, and press surveys, it analyses the women-state relationship by presenting five empirical studies on subjects, in which women figured prominently at the time: Indonesian labour, Indonesian servants in colonial homes, Dutch colonial fashion and food, the feminist struggle for the vote and the intense debate about monogamy of and by women at the end of the 1930s. Representative government, delegation of administrative authority to councils, direct participation of the population through representation and political parties, as well as concomitant voting rights were introduced slowly and gradually, depending on the estimated level of education of the population.

Women and the Colonial State: Essays on Gender and Modernity in the

Colonial democracy was a patchwork of limited rights and extensive regulations, originating in the strident Dutch wish to control political developments among the indigenous population as closely as possible. Based on new data from a variety of sources: colonial archives, journals, household manuals, children's literature, and press surveys, it analyses the women-state relationship by presenting five empirical studies on subjects, in which women figured prominently at the time: Indonesian labour, Indonesian servants in colonial homes, Dutch colonial fashion and food, the feminist struggle for the vote and the intense debate about monogamy of and by women at the end of the 1930s.
