Signal Processing in Radar Systems addresses robust signal processing problems in complex radar systems and digital signal processing subsystems. In this regard, AAHA recommends sufficient additional funds for Section 8 amendments to accommodate the increase in project operating expenses for service coordinators. And we thank you for this opportunity to present the views of The American Legion on the fiscal year 1994 appropriations for the Department of Veterans Affairs.

The continuing movement of inpatient activity to the ambulatory environment is offset to some degree by the increasing complexity of inpatient treatment associated with the aging veteran population.

Principles of Computer System Design

VA research is losing valued clinician investigators which has ramifications for maintaining quality in the medical care system. Construction funding should ensure the integrity of VAs physical plant.

Department of Housing and Urban Development

Madam Chairwoman, VA has not developed a process to determine national priorities. Madam Chair, VA discretionary funding accounts can not be permitted to continually remain below required appropriation levels. Housing programs very efficiently target a significant portion of the older population at risk of needing institutional care.

Read Download Grant Policy Manual PDF

The emphasis is placed on a clear understanding of the concepts, rather than on details; and the reader will learn about the structure of distributed systems, their problems, and approaches to their design and development. Madam Chair, we are cognizant of the fact that our Nation's current fiscal crisis does not allow this subcommittee to fund all programs under its jurisdiction at an optimum level.
