Learning Situation: To find a missing number.		Me	Teacher
3b) I can use my knowledge of number bonds to 100 to help me find a missing number.			
3c) I can use my knowledge of the 3x, 2x and 5 times tables to help me find a missing number.			
4a) I can carry out how to change a calculation around to find the answer.			
4b) I can use my knowledge of number bonds to 1000 to help me find a missing number.			
3b Questions			
1) $\square + 23 = 100$	6) $19 + \square = 100$		
2) $47 + \square = 100$	7) $75 + \square = 100$		
3) $18 + \square = 100$	8) $55 + \square = 100$		
4) $\square + 58 = 100$	9) $94 + \square = 100$		
5) $\square + 35 = 100$	10) $42 + \square = 100$		
3c Questions			
1) $\square \times 2 = 10$	6) $5 \times \square = 45$		
2) $5 \times \square = 35$	7) $\square \times 6 = 62$		
3) $35 \times \square = 70$	8) $\square \times 7 = 70$		
4) $\square \times 5 = 55$	9) $10 \times \square = 40$		
5) $\square \times 2 = 24$	10) $5 \times \square = 25$		
4a Questions			
1) $\square + 23 = 100$	6) $19 + \square = 100$		
2) $5 \times \square = 35$	7) $10 \times \square = 70$		
3) $81 + \square = 100$	8) $\square + 2 = 42$		
4) $\square + 44 = 100$	9) $94 + \square = 100$		
5) $\square + 5 = 100$	10) $5 \times \square = 85$		
4b Questions			
1) $\square + 123 = 1000$	6) $192 + \square = 1000$		
2) $407 + \square = 1000$	7) $763 + \square = 1000$		
3) $281 + \square = 1000$	8) $\square + 356 = 1000$		
4) $\square + 568 = 1000$	9) $949 + \square = 1000$		
5) $\square + 789 = 1000$	10) $477 + \square = 1000$

Introduction to Algebra

We work on like terms and learning that their are two sides to an equation. SA 090 091 092 093 094 095 096 097 098 099 100 101 102 103 104 105 106 107 108 109 110 111 112 113 114 115.

Beginning Algebra: Lumen Learning

We will continue to use it in the future. Learning the basics of algebra lays the groundwork you need to study geometry, trigonometry, and calculus in the future.

Free Algebra Practice Test from skynet2550.us.to

SA 008 009 011 012 014 015 016 017 018 019. SA 039 040 042 045 046 047 048 050.

Free Algebra Lessons

Are you looking for something more advanced? When you're confident with basic algebra, try. SA 047 048 049 050 051 052 053 054 055 056 057 058 059 060 061 062. If I started a student off with an algebra 2 worksheet, he or she might feel lost if they skipped algebra 1.

Virtual Math Lab

The Development of Arabic Mathematics.

How to Learn Algebra (with Pictures)

Lumen course materials are mobile-friendly. SA 081 082 083 084 085 086 087 088 089 090 092.

How to Learn Algebra (with Pictures)

This means that the point 2,6 two spaces to the right of center and six spaces above center is part of this equation's graph. All of our worksheets have two versions. So how do you get to a point where algebra is fun? To start learning algebra, you'll need to know basic math skills such as adding, subtracting, multiplying and dividing.
