## Planning the New Suburbia: Flexibility by Design, Friedman

Forced-path or guided floor plans are typically used in physically large spaces.

### Sidewalks in the Suburbs

Make the most of dressing room areas by using adjoining walls for promotional items and accessories like belts and scarves. Focus on political boundaries, not actual built forms.

### Universal Design: Process, Principles, and Applications

It was approved for V.

### Product Flexibility

Retailers use product mapping to strategically place product categories in designated store areas. The small apparel boutique pictured above really nails these traffic flow details. Specify the product or environment to which you wish to apply universal design.
