## Biology (BSc)

Through lectures and hands-on work, students learn how to design habitats around dwellings, within cities, and in rural environments. Public Health Majors have first consideration for enrollment.

## Sample First

Creating and restoring green infrastructures is discussed. Enrollment is limited to Graduate, Non-Degree or Undergraduate level students. In determining if this is the right path for you, we strongly recommend completing the Math Placement exam and following the suggestion given to you.

## Major Planning Worksheets

What is the Moreau course? Some states require a certain number of hours of home instruction each year.

## CNAS Scholars Learning Community

Nursing Science Majors have first consideration for enrollment. I am concerned about my language placement.
