## Faxing

And they believe that everyone should have access to the resources they need to become successful in their careers and in their lives. Note: Regardless of your starting point, all SharePoint groups are created on the site collection level.

## E

If check boxes do not appear next to the user and group names on the Permissions page, permissions are being inherited from a parent securable object. Through its Central Library and 72 branches, the Los Angeles Public Library provides free and easy access to information, ideas, books and technology that enrich, educate and empower every individual in our city's diverse communities.

## The Library Store

If unique permissions are being used not inheriting from the parent , users and SharePoint groups you add to this securable object only affect this securable object and any other entities that inherit permissions from this securable object. Curbside Services are available depending upon availability, please contact your preferred library location. The name of the parent appears next to the updated status.

## The Library Store

Note that if the securable object on which you are editing permission levels is inheriting permissions from a parent securable object, performing the following steps breaks this inheritance. When you click Show these items, you will see an Exceptions dialog box showing which items they are.

## Fairfax Branch Library

What benefits are available under the E-Rate program? Online resources and online services will remain available through the library website, including access to e-books 257,000+, e-journals 118,000+, publisher databases 119 , and streaming videos 41,500+.

## Services for Libraries

The Permissions : Securable object name page displays all users and SharePoint groups and their assigned permission levels that are applied on this securable object. The page description describes the inheritance status for this securable object.

## **Raynor Memorial Libraries // Marquette University**

Inherit permissions for a list or library in SharePoint 2007 By default, lists and libraries inherit permissions from the parent site.
