## Semantic Mapping of An Ottoman Fetva Compilation: EBUSSUUD Efendi's Jurisprudence through a Computational Lens

This article proposes computational methodologies that could characterize the contents of a 6,000-fetva corpus by an important Ottoman jurist, Şeyhülislam Ebussuud Efendi d. With this in mind, there is no doubt that Sunni Arab tribalism can have a substantial socio-cultural, political, and security impact on the Fertile Crescent region.

For Iraq, the current plan to create a tribally-based national guard seems to present a fundamental dilemma for the United States and the Baghdad governments: how to devolve security to the local level and empower communities to fight ISIL while avoiding the inadvertent encouragement of greater fragmentation in Iraq, the formalization of militia rule, and future military challenges to central authority. It just needs to be mobilized in the right direction.
