## Canada welcomes report from Just Transition Task Force for Canadian Coal Power Workers

Total GHG emissions have increased in Saskatchewan from 44.

## Nuclear Myth and Fact Project

They are fundamental to how we see ourselves and how we present ourselves to the world.

## 'Clean Coal' With Carbon Capture Debuts in North America (Not in U.S.)

The Government of Canada cannot afford to ignore the wide-ranging impacts on affected workers and communities of its actions on climate change. Climate change is also putting pressure on the livelihoods of workers. Together, these operations produce the in a province that has made coal its top export.

## System Map

This has only dialled up tensions in the perennial struggle between protecting nature and putting it to use.

## Feds announce funding for coal energy transition in Saskatchewan, Alberta

These workers and communities, like all Canadians, have earned a better future. Ottawa put the final regulations in effect this week with such strict pollution standards for coal-power plants that only one plant in Canada can possibly meet them. The various uses to which we have put the land, the way we have treated it, the joys we find in it, and the energy-rich treasures we have found under it have shaped our history, economy and society.

## Yahoo is now a part of Verizon Media

Police said no further information was being released as the investigation by officers and the Saskatchewan Coroners Service continued.
