Greenhouse gases pose threat to public health

NIEHS' knowledge management tool for locating the most relevant scientific literature on the health implications of climate change.

Health and Environmental Effects of Particulate Matter (PM)

Adults and children with asthma are more likely to have symptoms when ozone and particle pollution are in the air. This briefing describes approaches that are safe and sustainable by design and identifies enabling conditions, which support their uptake, and the related challenges and opportunities. Because most greenhouse gas emissions originate beyond our borders, such engagement is more necessary and urgent than ever.

Greenhouse gases pose threat to public health

This money helps offset the costs of the recycling program. That analysis, in addition to concluding that the significance of the proposed pipeline for our energy security and economy is limited, stressed that the United States must prioritize the development of a clean energy economy, which will in turn create good jobs. Participants may call in for the audio portion only if needed or preferred, and slides will be available for download on our webinar pages for those who call in.

Air pollutants: How they affect our health

The EPA warns that exposure to toxic air pollutants can increase risk for , as well as damage the immune, neurological, reproductive, and respiratory systems.
