## Q&A: Supporting survivors of childhood sexual abuse

Your child may also be sensitive about how they look and their new body changes. This normative timetable can serve as a guideline for parents as they struggle between wishes to protect their teen from potentially painful, premature sexual involvement and the recognition that dating and the establishment of a comfortable sexual life is an essential part of life.

Parents of teens with ADHD and other developmental and learning challenges know how hard it can be just to get their child through high school. Reactions to Puberty Because of the outpouring of growth and sexual hormones, the comfortable balance between mind and body which existed in the elementary school years is shattered. It will explain my Life Model, how your attitude affects your choices, how your choices affect your relationships, and how your relationships affect your attitude.

## Surviving Adolescence (Give me the patience)

Includes tips from the author and ones he has gathered from parents and children on dealing with such issues as tantrums, biting and crying in young children, fighting, daydreaming and school phobias in primary school children, and parent abuse, drug taking, dieting and experimenting amongst teenagers. The negativity and resistance of early adolescence are jammed up against the increased push for freedom and propensity for conflict of mid-adolescence that is jammed up against the need to try more grown activities of late adolescence. Three are girls and our foster son is almost 16 now.
