Second, the failure to recognize the Evangelical Theological Society as an important society for NT study is puzzling. From deism to Tübingen -- v. Like their predecessors, they followed the lead of colleagues in other areas of research.

History of New Testament Research (3 vols.)

While there is much to commend, I do have a few criticism. Baird gives attention to the biographical and cultural setting of persons and approaches, affording both beginning student and seasoned scholar an authoritative account of the evolution of historical-critical study of the New Testament. Observers of humanity, such as Max Weber and Émile Durkheim, developed the sociology of religion.
