In 1557, he undertook another journey into Italy, Savoy, Dauphiny, and Auvergne. Perhaps there is no order of men to whose charge so little positive evil can be laid; and if their studies do not always elevate the mind above the corroding cares and cankerous jealousies of life, they at least tend to bring it into a more immediate relation with the great Creator and Governor of the universe. Moreover, during the decade between 1880 and 1890 repeated and strenuous efforts were made to introduce the system of general co-education into the University.

But as the splendour of his talents, his success in teaching, and the celebrity which he had acquired in all parts of Greece, had excited the animosity of those who found themselves eclipsed by the brightness of his genius, no sooner was Alexander dead, than they stirred up a priest, named Eurymedon, with whom was associated Demophilus, a powerful citizen, to prefer a charge of impiety against him before the court of Areopagus, on the ground that he had commemorated the virtues of his wife and of his friend Hermeias with such honours as were exclusively bestowed on the gods. The faults of the book are so exceedingly numerous, that to point them out, would be more toil, than to write an accurate volume of twice the size. These he arranges in no definite order, although he proposes a kind of classification founded on the covering or skin; some, as seals and hippopotami, having a skin and hair; others skin only, as the dolphin; while the tortoises are covered with a substance resembling bark; oysters and other shells with a substance as hard as flint; echini with crusts and prickles; fishes with scales; sharks with a rough skin fit for polishing wood;

lampreys with a soft skin; and polypi with none at all.
