Approximately 50 percent of the articles indexed are in German; approximately 30 percent are in English. Compendium is organized by HHS operating divisions and agencies; it includes project descriptions 1,800 in 1985 edition , a subject index, agency sponsor index, and program name index. Data about a disease or clinical syndrome and its diagnosis derived primarily from two sources: review of medical literature, including general and subspecialty textbooks, monographs, and approximately 50-100 relevant primary journal articles; and debriefing medical experts, i.
