If There Were Anywhere But Desert

In this sense, in the deadlock between the not-so-much-explaining, but sober historical approach and the quasi-metaphysical however implicit and cautious assumption of some affinity between the tsimtsum and modernity, Jewish philosophy would share the fate of general modern philosophy.

If There Were Anywhere But Desert

La question qui se pose est justement s'il existe une judéité, ou des judéités, qui continuent à s'exprimer par des voies littéraires et quel est leur rapport avec une tradition en mal de transmission.

Edmond Jabès (Author of The Book of Questions)

This book is the first bilingual selection from the poetic works of Edmund Jabes, long acknowledged for the mastery of his work in the unique prose genre invented by him. Mythic in size, these poems channel the emotive qualities within, ready to be consumed by the viewer. Ellerimizle bir eşarp yapacağını da söylüyor, ama yalan söylüyor.

Edmond Jabès Quotes (Author of The Book of Questions)

This is summarized from the reader's description in A New History of French Literature, ed. Les contributeurs du volume, spécialistes des écritures de la judéité, ont essayé d'en explorer et d'en révéler les facettes cachées. Nevertheless it is not in the margin that you can find me, but in the yet whiter one that separates the word-strewn sheet from the transparent, the written page from the one to be written in the infinite space where the eye turns back to the eye, and the hand to the pen, where all we write is erased, even as you write it.

Edmond Jabès Research Papers

Very many of Jabes's books of prose and poetry have been translated into English, including The Book of Dialogue Wesleyan, 1987 and The Book of Margins Chicago, 1993 , both translated by Rosmarie Waldrop. A singularity as simple as a letter's altered trajectory can result in something new and unexpected at the point of disconnection — such as Braga's crônica.

Edmond Jabès

Başka yerde saklıyor, senin kirpiklerini yaldızlayan rüzgârda. Güldüğün yerde, gülüşünüm senin; ağladığın yerde, gözyaşlarına hayran yaban arsıyım. His work exhibits a profound sense of melancholy and an acute sense that the Jew is constituted and always remains in exile.

Edmond Jabès (Author of The Book of Questions)

He was made a Knight of the Legion of Honor in 1952 for his literary accomplishments. Tutaj właśnie kategoria wpływu traci swe prawo, parafrując Nietzscheego, i ustąpić musi pojęciu widma.
