## Joseph Listens

Absolutely love the collage style of illustration.

## Joseph Listens

There is also a brief note from the artists which tells of her process in making the collages. At the end of the book, photographs of the real events were shown, along with additional facts.

The folks who put together this book missed a real opportunity. In addition to exposing us to the culture, the theme of this story is also worthwhile. Prior to Mortenson's visit to Korphe, the village did not have a school building.

## Listen to The Wind

Well I was wrong and after driving 7 miles down this washboard route, I decided it best to turn around and go the old fashioned way and I pulled out an atlas. The illustrator chose collage art to illustrate the story as an imitation Picturebook based on the Story of Greg Mortenson's school building project in Pakistan.
