Uranium Supplies: Supply of Uranium

We have put ourselves in a position where the need to steal from the future is inescapable in the present, and where every act of theft is defended as better than an alternative of misery and starvation today.

New Uranium Mining Projects

In 2009, Virginia became an Agreement State for regulating source material, special nuclear material, and byproduct material except uranium mill tailings.

Unconventional Energy Resources: 2011 Review

I asked a geophysicist involved with the Olympic Dam mine about thorium. They have categorically voiced their opposition to UCIL's proposed uranium mines at Mahuldh. Wind power as baseload power? In January 2013, just before the General Assembly met, the Danville City Council passed a resolution unanimously supporting the moratorium.

Nursing Strategy for Canada

Application Are the Codes mandatory? A value for money audit was not carried out.
