### Graduate Course Timetable < University of Guelph

Funding is contingent upon the student maintaining satisfactory progress. Robert Corry Graduate Program Assistant: Diana Foolen Plant Agriculture Graduate Coordinator: Dr.

### Your Graduate Studies Team

To retain active status, individuals nominated to Regular Graduate Faculty must be involved on a regular basis with aspects of graduate education including advising students as principal advisor or as co-advisor and examining students and teaching graduate courses. You will be required to establish an Advisory Committee before the end of your second semester. Their role is to ensure that grad program policies are followed and your needs as a graduate student are met, so if you need help, you should feel free to contact your GPC.

### Aquaculture Centre

Technology transfer and information are conveyed through regular workshops, seminars, fact sheets, and applied training programs. We provide hands-on learning opportunities from nationally and internationally recognized experts to students at the diploma, undergraduate and graduate levels. It coordinates a variety of research, extension and educational activities, including the Aquaculture Centre and the Alma Aquaculture Research Station.

### Aquaculture Centre

Meetings can be booked up to a week in advance. This section provides a list of important dates throughout the semester such as the start of classes and the exam period, and deadlines for submission of certain forms. Exceptions to this guideline must be accompanied by justification to the BGS outlining the nature and extent of the experience or other training that equips the nominee for appointment to Regular Graduate Faculty.
