Bats Wildlife Note

Developers and bat crime Businesses engaged in property development and renovation work need to ensure that their activities will not disturb bats or their roosts.

Environmental Law: Government and Public Policy Towards the Environment

Federal wildlife and related laws will continue to play an important role in dealing with those issues. Up to 99% of bats can die in an infected hibernaculum.

bat

If you were surprised to read that California has 27 species of bat, don't be: these semi-cryptic critters make up about 20 percent of mammal species worldwide. Never handle a sick or dead wild animal without proper protection.

Bat frequently asked questions

The idea was to conserve and to increase population numbers - a measure that has mixed success. The gestation period lasts only a few weeks and baby bats are born in May or June. Specific pollution problems usually were resolved through private nuisance lawsuits, if at all.

Wildlife conservation projects do more harm than good, says expert

Bats emit pulses of high frequency sounds at a rate of a few to 200 per second.

Bats and the Law

But if they are, contact USFWS immediately.
