### Politics and Soviet

The only response from Washington and each administration is the effort to hush up the scandal. The Soviet serviceman had not fired at an American; he had fired at a totally unknown individual. It is time to debate in earnest the very different paths the country might follow in a post-Cold War world.

### Socialist Legal Systems

Perez de Cuellar has been a modest improvement Over his predecessor, Austria's Kurt Waldheim, whose activities as a German officer during World War 11 have left a black mark on the U.

### Kansas Common Sense

There is no place for human sharks to prey upon their fellow men.

### Foreign trade of the Soviet Union

Détente, it will be remembered, was much criticized as a media event.

### **will communism ever come back?**

One moratorium was being proposed within the European framework, and another one within a global framework. In the new Russian prisons, for example, the prisoners have the right to marry and to live with their families; they are taught useful trades and are paid full union wages for their work; there are no guards or walls or bars; the discipline is organized entirely by the prisoners themselves.

### Socialist Legal Systems

This, though it has been least observed, is by far the most important of all their effects. All shipbuilding technology in the USSR comes directly or indirectly from the United States and its NATO allies.

## **Toward Soviet America: The United States of Soviet America**

The great ranches of the Far West, the big corporation farms of the Middle West, the huge private estates of the millionaires in the East—all confiscated by the new government—will provide immediate bases for many such great State farms. Announcer: The Moscow visit didn't produce the Trade Pact the President hoped to bring home, but the Commission appointed to work on the matter did its job quickly. We also send rank-and-file state and collective farm workers to Cuba, and accept thousands of Cubans to the Soviet Union to exchange experience and teach them the more progressive methods of agriculture, to help them master the Soviet farm machinery which is being supplied to Cuba.
