Food & Beverage Market Research Reports & Food & Beverage Industry Analysis

This segment is expected to grow significantly in the forthcoming years owing to the active participation of market players in launching a variety of multipurpose and pet food treats options for dogs, cats, and others pets.

• Food production to supply ratio UK 1988

Many organic conversions were completed in the UK during 2001, increasing the area under organic cultivation by 133%.

Food & Beverage Market Research Reports & Food & Beverage Industry Analysis

Personalization of food products for pet animals has a lot of potentials to grow significantly as pet owners are becoming increasingly conscious about the food they are feeding to their pets. Potatoes, on the other hand, showed little significant growth in sales.

Global e

Eating-out will not return to pre-COVID levels this year and retail sales of red meat may start to suffer again as media noise around the industry accelerates. This part of the study looks at the whole of the UK food market. According to Key Note 2002 a , the total market for all these products is valued at almost £ 9 bn and still grows at around 2.
