**Gov't committed to providing needed infrastructure for mineral and forest resources**

August 8, 2005 , available at. These are corruption, lack of democracy, military spending, and foreign funds outflow which are common in oil- and mineral-dependent states and tend to lead to a negative growth in the MENA region.

## WTO

Multilateral financial institutions, bilateral assistance agencies, and international civil society groups need to provide assistance akin to the support for renegotiating extractive sector contracts — and bringing transfer pricing into line — in Liberia after the election of President Ellen Johnson Sirleaf.

## Policies

Our water sources are being destroyed.

**Gov't to provide needed infrastructure for mineral and forest resources**

Deep-sea mining with no net loss of biodiversity—an impossible aim.

**The mining policy of the Philippines and «resource nationalism» towards nation**

Resource nationalism involves actions and motivations of a resource-endowed country to ensure primacy over the development of its mineral resources vis-à-vis the participation of foreign investors. Recent developments in the Philippine minerals sector and outlook for the future, paper presented at the Philippine Mining Roadshow, Melbourne.

**Contribution Minerals and Mining Sector to National Development: Ghana**

This Policy seeks to show how Government intends to manage geological information in ways that will help all actors — Country, Companies, Communities — get a good deal from mineral assets.
