## Pittsburgh by Rand McNally Staff

A ring at the top makes it easy to hang and to proudly display your Wall Map! Use it to plan a trip in advance and write down the turns in bold print, or pull over to check the map.

However, I am planning a move to PGH. PGH is made up of dozens upon dozens of neighborhoods, some only a few blocks long, so I didn't have unrealistic expectations that this particular style of map would include them.

Seriously, it's not rocket science. This city does not seem to have been built with a grid in mind, similar to Los Angeles but definitely different. This mall has become one of Colorado's major tourist attractions, with a multitude of unique locally owned businesses and a variety of street performers and musical entertainment.

I know it's cheaper to purchase this map than a fast food burger, but I'd gladly pay a bit more to actually learn about city streets rather than invest in a magnifying glass.
