### Jamela's Dress by Niki Daly

Jamela is a clever, spirited little girl who happens to live in South Africa. Her impulsiveness gets her into all kinds of interesting situations that are fun to read about.

Another great story with the character Jamela. Many people commented on how beautiful the fabric was even though it was torn and ratty. But what I really love is the final sequence - armed with new fabric, Jamela's mother clearly having learned her lesson stays with her and sings and plays as the fabric dries on the clothesline, and then she makes a dress for her daughter.

### Jamela's Dress

Attracted by its bright hues, Jamela forgets her duty in the quest for fun.

A sympathetic and light-hearted slice of life. Just a gem, and would be even if it weren't for the multi-cultural setting. It deals with themes such as everyday life, the loving relationship between a mother and her daughter, and good intentions gone awry.

Jamela, on the other hand, takes it on a joyous walk down the street, drawing the attention of many friends and neighbors. When her mother discovers her missing fabrics, Jamela has to face the consequences. Jamela's mother was so upset as she had nothing to wear to the wedding.

. Guess who will have the biggest smile of all the well-dressed guests? Everyone is upset with Jamela, including Jamela herself, until a prize-winning photo saves the day. There is, as with any wedding, dramas involving a dress in this case it was Mama's dress.
