Here's one way to do it another way is to directly modify the footer style itself, but the following method makes it slightly easier to find and edit that style : Step 1. The principal advantage of this feature, and its most common use, is to allow you to set up special formatting for a subsequent page — but these actions will only have an effect if there are subsequent pages. Like all paired WordPerfect format codes, if you delete one, the other is also deleted.
