From a business perspective, it was logical to concentrate on a consumer line of operating systems based on DOS and Windows, and to prepare a new high-end system in such a way as to keep good compatibility with existing Windows applications. Windows, on the other hand, supported a much larger variety of hardware.

OS/2 Tips: How to build a home network with OS/2 Warp Connect

Specify a unique userid and password. Areas of memory below 512 MB have been remapped for higher availability in that region.
